

# NFOG 2023

Presenter first name	Presenter last name	Subm. organisation	Title	Category	Abstract number
Bitu	Eshraghi	Södersjukhuset/KJ	A part of my life. The meaning of Female Genital Mutilation and its health consequences. A qualitative study from Sweden.	1. Global Health	P1
Mehreen	Zaigham	Lund University, Harvard Medical School	Examining the Quality of Informed Consent in Intrapartum Clinical Trials: a prospective study in Uganda	1. Global Health	P2
Helena	Domeij	SBU	Prioritized research questions regarding pregnancy-related pelvic girdle pain	1. Global Health	P3
Gitte Søndergaard	Linde	Odense University Hospital	Screening for gestational diabetes mellitus (GDM) and co-creation of a self-care intervention in Vietnam – protocol for the VALID-II study	1. Global Health	P4
Signe	Hedegaard	Dept of Obstetrics and Gynecology, Herlev University Hospital, University of Copenhagen	Adherence to different forms of plant-based diet and pregnancy outcomes in the Danish National Birth Cohort	2. Obstetrics	P5
Jane M.	Bendix	Nordsjællands Hospital, Hillerød	Adherence to recommended physical activity-restrictions due to threatened preterm delivery – a descriptive multi-center study	2. Obstetrics	P6
Maria	Jeppgaard	Gynækologisk og Obstetrisk afdeling, Amager Hvidovre Hospital	AI assisted telephone triage in emergency maternity care	2. Obstetrics	P7
Joline	Asp	Department of Women's and Children's Health, Uppsala University	Alcohol exposure prior to pregnancy-does hazardous consumption affect placenta- and inflammatory-mediated pregnancy outcomes?	2. Obstetrics	P8
Anna Louise	Vestergaard	Regionshospitalet Rander, Kvindesygdomme og Fødsler	Alterations in signalling pathways in placentas – does the dose of vitamin D supplementation in pregnancy matter?	2. Obstetrics	P9
Sunná Hanusardóttir	Olsen	Department of Obstetrics and Gynecology, National Hospital of the Faroe Islands, Tórshavn, Faroe Isl	Birthweight and gestational age in the Faroe Islands	2. Obstetrics	P10
Carina	Skorpen	Alesund Hospital	Cesarean section in women with juvenile idiopathic arthritis – a population-based study	2. Obstetrics	P11
Katariina	Place	Helsinki University Hospital	Childbirth experience in late- and post-term nulliparous women with labor induction	2. Obstetrics	P12
Anne Engtrø	Husby	NTNU, Norwegian University of Science and Technology	Childbirth Experiences in Women with Polycystic Ovary Syndrome	2. Obstetrics	P13
Sidsel	Boie	Aalborg University Hospital	Continued versus discontinued oxytocin stimulation in the active phase of labour (CONDISOX): Individual management based on artificial intelligence	2. Obstetrics	P14
Anna	Sand	Karolinska Universitetssjukhuset Solna	Cord clamping time and placental transfusion in cesarean sections: an observational multicenter study.	2. Obstetrics	P15
Reetta	Varpula	University of Helsinki	COVID-19 in pregnancy: a meta-analysis of population-based surveillance in five Nordic countries yields lessons for current and future pandemics	2. Obstetrics	P16
Emma Louise	Christiansen	Dept Obstetrics and Gynecology, Aarhus University Hospital, Denmark	Definitions of failed induction of labor: A systematic review	2. Obstetrics	P17
Henna	Haavisto	Turku university hospital	Depressive symptoms and sleep disturbances in late pregnancy: associations with experience of induction of labor with a catheter	2. Obstetrics	P18
Richelle	Duque Björvang	Uppsala University	Diabetes in pregnancy associated with postpartum depression	2. Obstetrics	P19
Frida	Ekengård	Kvinnokliniken SUS	Evaluation of CTG guidelines and their impact on clinical decision	2. Obstetrics	P20
Christina Anne	Vinter	Odense University Hospital	Evaluation of intrapartum rapid detection of group B streptococci (GBS) tests in women with GBS bacteriuria during pregnancy	2. Obstetrics	P21
Valerie	Stålborg	Region Östergötland, kk VIN	Evaluation of the symphysis-fundal height curve to estimate fetal growth - a Swedish retrospective cohort study	2. Obstetrics	P22
Emmeli	Mikkelsen	Aarhus University	Fetal membrane cells in maternal blood at term	2. Obstetrics	P23
Tiina	Kantomaa	Oulun yliopisto	First trimester maternal serum PAPP-A and free $\beta$ -hCG levels and risk of SGA or LGA with GDM patients and controls	2. Obstetrics	P24
Lise Qvirin	Krogh	Aarhus University Hospital	FULL TERM INDUCTION OF LABOUR VERSUS EXPECTANT MANAGEMENT IN WOMEN WITH OBESITY: SYSTEMATIC REVIEW AND META-ANALYSIS	2. Obstetrics	P25
Isabella Hangaard	Rüdiger	Department of Gynecology and Obstetrics, Regional Hospital of Randers, Denmark	High Vitamin D Levels Moderates the Prothrombotic Profile in Pregnancy by Reducing Plasminogen Activator Inhibitor 1	2. Obstetrics	P26
Venla	Kemppainen	Helsinki University Hospital	History of induced abortion is associated to fear of childbirth in primiparous women. A Finnish population based register study.	2. Obstetrics	P27
Tia	Mäkelä	Helsinki University Hospital	How do different childbirth experience scales predict childbirth related posttraumatic stress symptoms and disorder?	2. Obstetrics	P28
Signe Haaland	Buer	Norwegian University of Science and Technology (NTNU)	Immunological development in preeclampsia and gestational hypertension assessed by longitudinal serum cytokine profiling	2. Obstetrics	P29
Lena Have	Rosvig	Horsens Regional Hospital	Improving teams' clinical performance in the Labour and Delivery Unit using video-assisted debriefing of real-life events	2. Obstetrics	P30
Marie	Larsen	Københavns Universitet	Incidence of shoulder dystocia and risk factors for recurrence in the subsequent pregnancy	2. Obstetrics	P31
Katariina	Laine	Oslo University Hospital	Increased proportion of spontaneous vaginal deliveries in Norway	2. Obstetrics	P32
Hanne	Hegaard	Afdelingen for Graviditet, Fødsel og Barsel, Rigshospitalet	Intimate partner violence among pregnant women in Denmark from 2019-2021 – a hospital-based cross-sectional study	2. Obstetrics	P33
Mie	de Wolff	Copenhagen University Hospital, Hvidovre	Is Midwifery Continuity of Care associated with higher satisfaction during pregnancy and birth?	2. Obstetrics	P34
Christina	Anne Vinter	Odense University Hospital	LiPO Teen (the Lifestyle in Pregnancy and Offspring Teenagers): Identification of modifiable antenatal risk factors for childhood obesity - a protocol	2. Obstetrics	P35
Steffaine	Romero	Karolinska Institutet	Long-term neurodevelopmental outcome in children born after low- or mid-station vacuum-assisted delivery: an observational cohort study	2. Obstetrics	P36
Kristin	André	Lund University, Sweden	Maternal origin matters – Country of birth as a risk factor for obstetric anal sphincter injuries: A national cohort study	2. Obstetrics	P37
Anastasia	Trouva	Karolinska Institute	Maternal thyroid function as predictor for markers of insulin resistance in pregnant women with polycystic ovary syndrome	2. Obstetrics	P38
Nora Hersoug	Nedberg	UiT Norges Arktiske Universitet	New insights on maternal platelet alloimmunization and placenta function	2. Obstetrics	P39
Nanna S.	Svensson	Dep. of Obstetrics and Gynaecology, Regional Hospital Randers	Next-generation effects of vitamin D supplementation in pregnancy	2. Obstetrics	P40
Lea Kirstine	Hansen	Dept. of Clinical Medicine & Dept. Obstetrics and Gynecology, Aarhus University Hospital, Denmark	Nordic randomized trial on laparoscopic versus vaginal cerclage (NORACT)	2. Obstetrics	P41
Ida Karoline	Bach Jensen	Department of Gynecology and Obstetrics, North Zealand Hospital, Hillerød, Denmark	Objectively measured physical activity during pregnancy is associated with maternal lipid profile, but not with HbA1c: Data from the FitMum RCT	2. Obstetrics	P42
Monica	Ladekarl	Amager Hvidovre Hospital, Region Hovedstaden	Optimizing telephone triage of pregnant and birthing women by developing a voice bot solution in multiple languages	2. Obstetrics	P43
Mahsa	Nordqvist	Akleja Kvinnoklinik	Oral Lactobacillus Rhamnosus exposure during pregnancy and effects on maternal inflammatory response	2. Obstetrics	P44
Ane Lilleøre	Rom	Department of Obstetrics, Copenhagen University Hospital, Rigshospitalet	Paracetamol use prior to and in early pregnancy – prevalence and patterns among women with and without chronic medical diseases	2. Obstetrics	P45
Maria	Otterheim	Kvinnokliniken Vrinnevisjukhuset Norrköping	Pelvic floor dysfunction eight weeks after an obstetric second degree perineal laceration in relation to BMI	2. Obstetrics	P46
Julie	Glavind	Department of Obstetrics and Gynecology, Aarhus University Hospital	Perinatal outcomes after therapeutic rest in the latent phase of labor: a Cohort study	2. Obstetrics	P47
Johanna	Molin	Umeå University	Placental leptin and leptin receptor gene expression in women with polycystic ovary syndrome treated with metformin or placebo..	2. Obstetrics	P48
Helene Fjeldvik	Peterson	Akershus University Hospital	Placental size at gestational week 37: Comparison between ongoing pregnancies and deliveries	2. Obstetrics	P49
Paul	Axelsson	Odense Universitetshospital	Postpartum infection rates for intended vaginal delivery compared to intended cesarean delivery: a Danish national register study	2. Obstetrics	P50
Danielle	Damm	Skane University Hospital	Predicting maternal morbidity in hypertension disorders in pregnancy with the shrunken pore syndrome ratio to optimize timing of delivery	2. Obstetrics	P51
Jennie	Larsudd-Kåverud	Gothenburg Confinence Research Group	Predicting risk of anal sphincter injury at delivery in primi- and secundipara and at the first vaginal delivery after a cesarean section	2. Obstetrics	P52
Sif Emilie	Carlson	Nordsjællands Hospital, RegionH	Pregnant women's experiences with severe chronic pelvic pain treated with Manual/Musculoskeletal Medicine: A qualitative interview study	2. Obstetrics	P53
Kristina	Petterson	Karolinska university hospital	Preterm birth among women living with hiv in Sweden	2. Obstetrics	P54
Lea Bo Sønderlund	Ankerstjerne	Department of Gynaecology and Obstetrics, Odense University Hospital	Prevalence and risk factors of intimate partner violence among pregnant women in Denmark – A register-based study	2. Obstetrics	P55
Helena	Domeij	SBU	Prioritized development needs associated with caesarean section	2. Obstetrics	P56
Marit	Larsen	NTNU	Proactive vs. standard support of labour – a randomized controlled clinical trial	2. Obstetrics	P57
Karin	Gidén	Department of women and children's health, Uppsala University, Sweden	Remission or persistence? A tool to predict women with high risk for persistent depressive symptoms among women with symptoms early postpartum	2. Obstetrics	P58
Ida Catharina	Püschl	Department of Obstetrics and Gynaecology, Zealand University Hospital, Roskilde, Denmark	Salivary uric acid as a predictive test of preeclampsia, pregnancy-induced hypertension and preterm delivery: A pilot study	2. Obstetrics	P59
Anne K.	Örtqvist	Karolinska Institutet	Severe COVID-19 during pregnancy in Sweden, Norway and Denmark	2. Obstetrics	P60

Maja Lecic	Bonnichsen	Vestre Viken HF	SEVERE MATERNAL OBESITY AND ACTIVE LABOUR	2. Obstetrics	P61
Silje	Pettersen	Oslo University Hospital	SEVERE, BUT NOT LIFE-THREATENING - AN INCREASING TREND OF SEVERE POSTPARTUM HEMORRHAGE WAS NOT FOLLOWED BY AN INCREASE IN MATERNAL NEAR MISS	2. Obstetrics	P62
Anne	Eskild	Akershus University Hospital, Norway	Short inter-pregnancy interval and birthweight: A follow-up study of all women in Norway with two singleton deliveries during 1970-2019	2. Obstetrics	P63
Päivi	Polo-Kantola	Turku University Hospital and University of Turku	Sleep duration and sleep loss during pregnancy in women with gestational diabetes	2. Obstetrics	P64
Camilla Tjenneland	Mentzoni	Norwegian Institute of Public Health	Temporal trends in severe postpartum hemorrhage among nulliparous women with a spontaneous onset of labor at term.	2. Obstetrics	P65
Lisa	Berglin	University of Gothenburg	The impact of exclusion due to Covid-19 restrictions on partners satisfaction with Swedish hospital postnatal ward care	2. Obstetrics	P66
Camilla	Haavaldsen	Akershus University Hospital	The risk of preeclampsia according to gestational age	2. Obstetrics	P67
Isa	Reuterwall	Region Västmanland	Unplanned pregnancy and neonatal outcome: a retrospective cohort study	2. Obstetrics	P68
Alisa	Carlander	Kvinnokliniken Västmanlands sjukhus Västerås	Unplanned pregnancy is associated with a low risk for women during pregnancy and labor: a Swedish cohort study	2. Obstetrics	P69
Joline	Asp	Center for Clinical Research Dalarna, Falun, Sweden	What do we register? The validity of prenatal AUDIT screening for alcohol disorders- a Swedish register study	2. Obstetrics	P70
Lise Qvirin	Krogh	Aarhus University Hospital	WHEN TO INDUCE FOR OVERWEIGHT (THE WINDOW STUDY): AN ONGOING RANDOMISED CONTROLLED TRIAL	2. Obstetrics	P71
Minna	Lundén	Danderyds Sjukhus	Women born in sub-Saharan countries have an increasing incidence of stillbirth, a cohort study in Stockholm 2001-2020.	2. Obstetrics	P72
Stinne	Høgh	Copenhagen University Hospital: Rigshospitalet	Women's perceptions of biological causes and potentiality of genomic risk markers in postpartum depression	2. Obstetrics	P73
Qiongjie	Zhou	Obstetrics and Gynecology Hospital of Fudan University	Association between levothyroxine treatment for maternal subclinical hypothyroidism with negative TPOAb and infants' neurodevelopment	3. Fetal Medicine	P74
Caroline Sylvest	Worm	Aarhus University	Can high maternal vitamin D levels positively affect prenatal neurodevelopment in obese pregnancies?	3. Fetal Medicine	P75
Karianne	Sagberg	Akershus university hospital	Placental volume measurements using tracked 2D ultrasound and artificial intelligence	3. Fetal Medicine	P76
Hannibal	Troensegaard	Oslo University Hospital	Protocol for 20 years follow-up after a randomized controlled trial on Mediterranean diet in pregnancy	3. Fetal Medicine	P77
Ellika	Andolf	SFOG	Born into Life – a longitudinal study before conception, during fetal life and the first years of life	4. Reproduction	P78
Mathias	Fagervik	Department of Clinical and Molecular Medicine Faculty of Medicine and Health Sciences, NTNU	Fertility subsequent methotrexate and salpingectomy treatment of first ectopic pregnancy	4. Reproduction	P79
Sofia	Persson	Uppsala University	Hyperandrogenic Symptoms Are a Persistent Suffering in Midlife Women with PCOS; a Prospective Cohort Study in Sweden	4. Reproduction	P80
Amanda	Tuomisto	Oulu University Hospital	Male hypogonadism and the risk of pre-diabetes and type 2 diabetes from the age of 31 to 46 years; a population-based follow-up study	4. Reproduction	P81
Camilla	Jäntti	University of Helsinki	Pre-abortion contraceptive planning predicts the rate and type of post-abortion hormonal contraception use	4. Reproduction	P82
Unnur	Gudnadottir	Karolinska Institutet	Pre-pregnancy complications - associated factors and wellbeing in early pregnancy: A Swedish cohort study	4. Reproduction	P83
Ylva	Af Sandeberg	Uppsala University Hospital	Single motherhood by choice in Sweden: unanticipated support needs and financial problems	4. Reproduction	P84
Ylva	Guterstam	Karolinska Institutet	Uterine immune cell profiling of patients with early pregnancy bleeding	4. Reproduction	P85
Anton	Sandström	Umeå University	Altered GABAA receptor function in women with endometriosis: A possible pain-related mechanism	5. General Gynaecology	P86
Vilde	Dons	St. Olavs hospital/Norwegian University of Science and Technology, Trondheim	Amsterdam Hyperactive Pelvic Floor Scale. Translation and psychometric testing of a Norwegian version among women with pelvic floor dysfunctions	5. General Gynaecology	P87
Peter	Lukas	Linköping University	Association between preoperative spatial pain extent and postoperative pain after benign hysterectomy with emphasis on pelvic pain.	5. General Gynaecology	P88
Reetta	Linnakaari	HUS	Association of miscarriage and mental health - a Finnish nationwide register-based study	5. General Gynaecology	P89
Päivi	Polo-Kantola	Turku University Hospital and University of Turku	Associations between Arterial Health and Sexual Function in Late Middle-aged Women	5. General Gynaecology	P90
Tina	Randrup	Department of Obstetrics and Gynaecology, Gødstrup Hospital	Characteristics of women undergoing active surveillance for cervical intraepithelial neoplasia grade 2 - A population-based cross-sectional study	5. General Gynaecology	P91
Maria	Ronslund	Department of Obstetrics and Gynecology, Institute of Clinical Sciences, Sahlgrenska Academy, Univer	Combined oral contraceptive pill compared with no medical treatment in the management of polycystic ovary syndrome: A systematic review	5. General Gynaecology	P92
Cecilie Therese	Hagemann	St. Olavs hospital/Norwegian University of Science and Technology, Trondheim	Early intervention after rape to prevent post-traumatic stress disorder and pelvic floor dysfunction – a multicenter randomized control trial	5. General Gynaecology	P93
Louise	Stiermann	Umeå University	Emotional brain activation in women with premenstrual dysphoric disorder and association to progesterone-derived neurosteroids	5. General Gynaecology	P94
Cecilie Therese	Hagemann	St. Olavs hospital/Norwegian University of Science and Technology, Trondheim	Hyperactive pelvic floor in women. A survey among patients and healthy volunteers	5. General Gynaecology	P95
Gulnara	Kassymova	Linköping University	Impact of symptoms of anxiety and depression on the use of unplanned telephone contacts and visits with the healthcare after benign hysterectomy	5. General Gynaecology	P96
Lovisa	Brehmer	Karolinska Universitetssjukhuset	Membranous dysmenorrhea or passage of a decidual cast – review of the literature from Morgagni up to today	5. General Gynaecology	P97
Rebecca	Götze Eriksson	Uppsala Universitet	Menopausal hormone therapy - where do we stand today? Experiences and challenges among Swedish prescribers.	5. General Gynaecology	P98
Anna	Aromaa	Department of Obstetrics and Gynecology, Satairaala Central Hospital and University of Turku	The attitudes and practice patterns of obstetrician-gynecologists towards sexual problems	5. General Gynaecology	P99
Eva	Hauge	Department of Gynecology and Obstetrics, Randers Regional Hospital, Denmark	The risk of cervical stenosis after conization in postmenopausal women	5. General Gynaecology	P100
Gunn Åshild	Botnen	St. Olavs hospital/Norwegian University of Science and Technology, Trondheim	The validity of a question on chronic pelvic pain in the general female population in the HUNT study, Norway	5. General Gynaecology	P101
Sine	Jacobsen	Department of Obstetrics and Gynaecology, Randers Regional Hospital, Denmark	Vaginal CO2 laser therapy for genitourinary syndrome in breast cancer survivors - A randomized blinded controlled trial	5. General Gynaecology	P102
Rakel	Gabrielsen	Akershus University Hospital, Kristiania University College	Women's health physiotherapists clinical practice and endometriosis patients views of general exercise - a mixed-methods study	5. General Gynaecology	P103
Malou	Barbosa	Aarhus University hospital	Does perineorhaphy improve sexual health?	6. Urogynaecology	P104
Vibe Munk	Bertelsen	Department of Gynaecology and Obstetrics Randers Regional Hospital	Can pre-treatment with vaginal estrogen improve the colposcopy performance in postmenopausal women? – a randomized controlled trial	7. Gynaecological Oncology	P105
Rikke Kamp	Damgaard	Dep. Gynecology & Obstetrics, Gødstrup Hospital, Central Denmark Region	Human Papilloma Virus Genotypes for Risk Assessment of Cervical Intraepithelial Neoplasia Grade 2 (CIN2)	7. Gynaecological Oncology	P106
Mehreen	Zaigham	Lund University, Harvard Medical School	Challenges imposed by the COVID-19 pandemic on the Obstetrics and Gynecology residency program	8. Other	P107
Kristina	Elfgrén	Region Stockholm	Experience from HPV self-sampling as part of a population based cervical cancer screening program in the region of Stockholm, Sweden	8. Other	P108
Trine	Finanger	4210540	Facilitating gynecological examination and long acting contraception for women with substance use disorder	8. Other	P109
Silke	Rossau	Randers Regional Hospital	Improving patient recruitment into clinical trials	8. Other	P110
Hilde	Engjom	Norwegian Institute of Public Health	Lessons from national surveillance of COVID-19 in pregnancy in Norway	8. Other	P111
Emma	Fransson	Karolinska Institutet	Restoration of microbiota in newborns (RoMaNs)– a randomized placebo-controlled multicenter allergy prevention study	8. Other	P112
Ganesh	Acharya	Karolinska Institutet	Team-Based Learning (TBL) in Clinical Disciplines for Undergraduate Medical Students - A Scoping Review	8. Other	P113
Ganesh	Acharya	Karolinska Institutet	Team-Based Learning in Obstetrics and Gynecology	8. Other	P114
Rina	Korjamo	Helsinki University Hospital, Department of Obstetrics and Gynecology	The criminal procedure in rape cases regarding clients of the Helsinki Seri Support Center, Finland	8. Other	P115
Tina	Haugen	NTNU	The EIR-study pilot: Can we prevent posttraumatic stress after rape?	8. Other	P116
Terhi	Salisto	Helsinki University Women's Clinic	The implementation of a national recommendation concerning obstetric and neonatal emergency training in Finnish maternity hospitals	8. Other	P117
Kathrine Dyhr	Lycke	Gødstrup Hospital	Risk of preterm birth after active surveillance for cervical intraepithelial neoplasia grade 2	5. General Gynaecology	PS01
Kathrine Dyhr	Lycke	Gødstrup Hospital	Regression and progression rates of untreated cervical intraepithelial neoplasia grade 2	5. General Gynaecology	PS02
Finn Egil	Skjeldestad	Research Group Epidemiology of Chronic Diseases, Department of Community Medicine	Minor changes in incidence of primary and secondary infertility across birth cohorts 1916 to 1975, but major differences in treatment success	4. Reproduction	PS03
Kajsa	Sandberg Kedfors	Göteborgs Universitet	The influence of an extended postnatal program on contraceptive use during the first year postpartum – a randomized controlled trial	5. General Gynaecology	PS04
Maria	Forslund	Department of Obstetrics and Gynecology, Institute of Clinical Sciences, Sahlgrenska Academy, Univer	Use of different kinds of combined oral contraceptive pills in polycystic ovary syndrome: A systematic review and meta-analysis	5. General Gynaecology	PS05
Johanna	Melin	Department of Obstetrics and Gynecology, Helsinki University Hospital, Finland	Effect of metformin in the management of polycystic ovary syndrome: a systematic review and meta-analysis of randomized controlled trials	5. General Gynaecology	PS06
Tina	Saarinén	PEDEGO research unit, University of Oulu	Climacteric status at the age of 46: association with perceived work ability and a two-year follow-up on disability days and unemployment days.	5. General Gynaecology	PS07
Erica	Smedberg	Södersjukhuset, Sweden	The educational game SonoQz improves diagnostic accuracy in ultrasound assessment of ovarian tumors	5. General Gynaecology	PS08
Anna	Lundmark Drca	Kvinnokliniken, Södersjukhuset, Stockholm	Sexual function and pain 10-14 years after insertion of a mid-urethral sling among women with stress urinary incontinence in Sweden	6. Urogynaecology	PS09
Rikke Kamp	Damgaard	Dep. Gynecology & Obstetrics, Gødstrup Hospital, Central Denmark Region	Distribution of HPV, age, cytology and expert review in women undergoing active surveillance for cervical intraepithelial neoplasia grade 2 (CIN2)	7. Gynaecological Oncology	PS010
Nikoline Schou	Karlsen	Department of Gynecology, Rigshospitalet/Copenhagen University Hospital	Preoperative identification of borderline ovarian tumors using the International Ovarian Tumor Analysis group (IOTA) terminology and ADNEX model.	7. Gynaecological Oncology	PS011
Trine	Finanger	St. Olav	Phosphatidylethanol (PEth) as a biological marker of alcohol intake in early pregnancy: an observational study in 4067 pregnant women	8. Other	PS012

Frida	Rensfeldt	Unit of Obstetrics and Gynecology - Östersund	Causes of death in stillbirth and quality of care—an example of a local audit	2. Obstetrics	PS013
Anna JM	Aabakke	Dept. Obstetrics and Gynecology, Holbæk Hospital, Denmark	Risk factors for and outcomes after SARS-CoV-2 in pregnancy according to disease severity; Cohort study with validation of the SARS-CoV-2 diagnosis	2. Obstetrics	PS014
Anne K.	Örtqvist	Karolinska Institutet	The association between SARS-CoV-2 and de novo hypertension during pregnancy – a population-based cohort study in Sweden and Norway	2. Obstetrics	PS015
Mariell	Ryssdal	Norwegian University of Science and Technology	Metformin has immunomodulatory effects in pregnant women with PCOS	2. Obstetrics	PS016
Camilla Viola Buskbjerg	Palm	DSOG	Prenatal Testosterone Exposure and Associations with Offspring Body Composition at 7 Years of Age. Odense Child Cohort.	2. Obstetrics	PS017
Emma	Hertting	Karolinska Institutet, Södersjukhuset	The importance of antenatal identification of small for gestational age fetuses	3. Fetal Medicine	PS018
Linda	Lindström	Uppsala University	Accuracy and precision of sonographic fetal weight estimation in Sweden	3. Fetal Medicine	PS019
Mette L.	Josefsson	Uppsala University	Patient reported satisfaction after spontaneous second-degree tear compared to episiotomy – a Swedish register-based cohort study	2. Obstetrics	PS020
Elli	Toivonen	Tampere University Hospital	Validation of the Finnish Hospital Discharge Register diagnoses for preeclampsia, gestational diabetes and preterm delivery	2. Obstetrics	PS021
Maria	Jeppegaard	Gynækologisk og Obstetrisk afdeling, Amager Hvidovre Hospital	Winter, spring, summer or fall: Temporal patterns in placenta-mediated pregnancy complications – an exploratory analysis	2. Obstetrics	PS022
Nadja	Visser	Uppsala University, department of Women's and Children's Health	Effect of phthalate mixtures on endometrial cell gene expression and function in vitro	4. Reproduction	PS023
Janina	Bosas	University of Helsinki	Factors affecting female sexual well-being: a 5-year follow-up of a randomized clinical trial on post-abortion contraception	4. Reproduction	PS024
Sofia	Persson	Uppsala University	Higher risk of type 2 diabetes in women with hyperandrogenic polycystic ovary syndrome	4. Reproduction	PS025
